The Chemistry Behinds...

## **COLORSOFT CWS LIQUID**

### **Product Information**

Colorsoft CWS liquid is a specially developed softener for cotton, polyester, wool and their blends. It imparts soft and limpy handle to the treated substrate. It does not impair the whiteness or brightness of garments. Colorsoft CWS liquid can be applied by pad as well as by exhaust application. Thus, it is suitable to finish the material in any form such as yarn knits, wovens or even garments.

### **FEATURES**

- Non-yellowing
- Universal softener

### **BENEFITS**

- Suitable for finishing of whites & pale shades
- Single product for finishing cotton, polyester, wool and their blends and garments

### **PROPERTIES**

Appearance -----→ White to creamish liquid.

Ph 1% -----→ 5+/-2.

Ionic nature-----→ Cationic.

Miscibility -----→ Miscible with water.

Compatibility-----→ Compatible with cationic and nonionic.

Stability -----→ Stable to dilute and dilute alkalies.

## **DOSAGE & APPLICATIONS**

### **Padding Process:**

20-30g/l      Colorsoft CWS liquid

65-75%      Pick-up

pH            5.0-6.0

Temp.        130-160 deg

### **Exhaust method:**

2-3%        Colorsoft CWS liquid

pH            5.0-6.0

Temp.        30-40 deg

Time         20-30 min.

## **CAUTION**

- 🌿 In case of skin contact, wash with plenty of water.
- 🌿 In case of eye contact, wash with plenty of water and seek medical advice.

## **PACKING MATERIAL**

50KG BAG PACKING.

## **The storage guidelines for the product**

### **1.Storage Conditions:**

- 🌿 Store the product in its original container.
- 🌿 Keep it in a dry, dust-free location at temperatures below 50°C.

### **2.Ventilation and Compatibility:**

- 🌿 Ensure the storage area is well-ventilated.
- 🌿 Keep the product away from incompatible materials (as specified in the Material Safety Data Sheet) and food items.

### **3.Container Handling:**

- 🌱 Seal the container tightly after each use.
- 🌱 Avoid pouring unused material back into the container.

### **4.Shelf Life:**

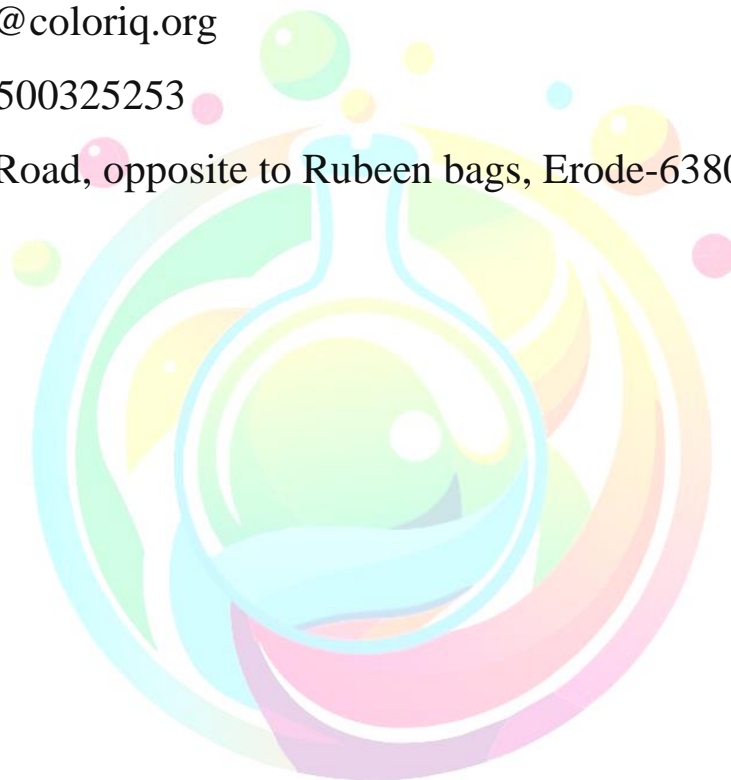

- 🌱 The product remains usable for at least 24 months from the date of manufacture.
